

## About Us

ACN is a global engineering services company with its headquarters in Turkey and is a market leader across a number of industries.

Our company has gained acclaim for taking on major, complicated projects, supporting innovation, adopting emerging technology, and affecting positive change for its customers, workers, and community.

With the stability and resources of a global company and the accessibility and assistance of a small business, ACN provides its clients with the best of both worlds.

Our vision is to provide worldwide engineering services and technical skills at the highest possible value.
